

# ***CAMPUS SAFETY***

INFORMATION FROM THE

***UNIVERSITY OF ILLINOIS POLICE DEPARTMENT***

# WHO WE ARE

The **University of Illinois Police Department** is a 24-hour operation, 365 days a year. UIPD is fully accredited, and we offer all the traditional police services.

Our **24-hour patrol operations** provide a quick response to 911 calls and more.

The **Community Outreach and Support Team** works in an educational capacity to empower individuals to take care of themselves and others. COAST also provides emergency mental health support.

Detectives in our **investigations** division follow up on reported crimes and are specially trained to support and care for survivors of sexual assault.

**Specialized resources** include bomb detection and disposal; special weapons and tactics; patrol K-9s and comfort K-9s; special victim resources; bicycle- and ATV-mounted patrol; and others.

Staff members in **Emergency Management** work to ensure every university facility is prepared for otherwise unimaginable emergencies, including pandemics, natural disasters, terrorism, and other threats.

Our **security officers** work to provide an extra layer of security, primarily around residence halls and libraries. Security officers are empowered to intervene when they observe unsafe conditions or call for a police response.

*It's easy to reach UIPD if you need help. Call 911 in an emergency. For non-emergencies, visit [police.illinois.edu](https://police.illinois.edu).*

# UIPD COMMUNITY OUTREACH

The Community Outreach and Support Team (COAST) at the University of Illinois Police Department provides educational programming, organizes community events and offers visits from its team of therapy dogs.

Additionally, COAST deploys the Response, Evaluation and Crisis Help (REACH) team in situations where students, faculty or staff members are experiencing a mental health crisis. The REACH team works in a co-responder model, where social workers are paired with behavioral health detectives to assess a crisis situation in the moment. This model means UIPD can provide better in-the-moment clinical assessments during a mental health emergency and get the person experiencing that crisis any help they may need. REACH also follows up to make sure that person has access to long-term resources if appropriate.

*More information about COAST, REACH and the therapy dogs is available on the UIPD website.*

**SCAN THE CODE TO ACCESS.**

## **THERAPY K9s**

*The UIPD therapy dogs are available to help alleviate mild stress or just to be around when you are in need of a furry friend. You can learn more and request a therapy K9 visit on the UIPD website.*

# GENERAL SAFETY TIPS

We have a safe campus, but no community is completely crime-free. There are things you can do to reduce your risk of being targeted by a criminal:

## **TRUST YOUR INSTINCTS.**

If you feel uncomfortable in a place or situation, leave right away and go immediately to an area with lights and people.

## **LOCK YOUR DOORS, EVEN IF YOU ARE IN THE ROOM.**

Theft is the most common crime on college campuses, and ours is no exception. The best way to stop theft is by locking up your residence and vehicles. It also protects you from people who may have ill-intent.

## **DON'T LET OTHERS "PIGGYBACK."**

Especially around residence halls, holding doors for others may provide access to people who don't belong there. Politely ask others to use their key or swipe card to gain entry.

## **REPORT SUSPICIOUS ACTIVITY.**

Even the smallest bit of information could prevent a crime and help protect yourself or others.

## **USE SAFEWALKS.**

Criminals target people walking alone at night. Walking in groups of three or more is the best way to prevent crime. Call 217-333-1216 to access SafeWalks, our free walking escort service.

## **STAY AWARE OF YOUR SURROUNDINGS.**

Listening to music or using your phone can distract you from people or vehicles around you.

## **KEEP AN EYE AND AN EAR OUT FOR SCAMS.**

Not everyone is who they say they are. Scammers target college students online and by phone with offers of jobs, or with threats of arrest. If it sounds sketchy, it probably is.

**I**

**QUICK  
TIP!**

*If something doesn't feel right, it probably isn't.  
Call police immediately if you need help.*

---

# SAFEWALKS

Criminals are opportunistic and tend to target people who are walking alone late at night in secluded areas. You can reduce your risk of being targeted by walking in groups of three or more, and by using well-lit, high-traffic routes.

SafeWalks is a free safety escort service provided by trained Student Patrol officers who will walk with you when you are traveling on campus at night. Student Patrol officers are also trained in first aid and basic medical intervention, and they carry the same radios as police and other first responders, so they have a direct line of communication with emergency services.

**All you need to do is call 217-333-1216 to request a SafeWalks escort.**

SafeWalks is available after 7 p.m. during the late fall and winter months and after 9 p.m. in the spring, summer and early fall. It runs until 2:30 a.m. on nights before a weekday and until 3 a.m. on weekend nights.

With SafeWalks, you never have to walk alone at night.

# GETTING AROUND CAMPUS

Campus traffic can get busy, especially when students are traveling to and from class. There are lots of ways to get around campus, but it's important to observe a few safe practices.

## **VEHICLES.**

You probably won't be driving much to classes, but there is a lot of vehicular traffic on campus. All vehicles must follow the laws in the Illinois Vehicle Code. Remember to slow down in high-traffic areas, and do not drive distracted. Yield to bicyclists in the roadway — Bicycles are not required to use bike lanes, nor are they required to move to the side of the road for a vehicle. Treat them like you would any other vehicle. Yield to pedestrians in the crosswalk. Pedestrians who have safely established themselves in a crosswalk have the right of way.

## **BICYCLES.**

Bicyclists in the roadway are subject to all laws which apply to vehicles. Bicyclists on the sidewalk are subject to all laws that apply to pedestrians. Whether you are in the roadway or on the sidewalk, you must abide by all traffic signs and signals, like stop signs. Failing to do so is dangerous to yourself and others. Yield to pedestrians when required. Bicycle-pedestrian accidents are common on campus and may result in injury. Slow down in high-traffic areas.

## **PEDESTRIANS.**

Pedestrians are subject to a number of laws to keep them safe. If there is a sidewalk, pedestrians must use it. Pedestrians must use crosswalks at intersections with traffic signals, and walk only when the walk signal is illuminated. Pedestrians do not automatically have the right of way before they enter a crosswalk. Vehicles do not have to stop for pedestrians who have not yet entered a crosswalk, and a pedestrian must allow enough space for a vehicle to stop safely before entering a crosswalk.

**I**  
**QUICK**  
**TIP!**

*The Champaign-Urbana Mass Transit District is a great way to get around campus and the greater community. Check out their website at [mtd.org](http://mtd.org) to get more information about bus routes and helpful tools you can use to plan your trips.*

---

# PREVENTING BIKE THEFT

Theft is the most common crime on college campuses everywhere, and ours is no exception. Bicycles are common targets for thieves, but there are a few ways you can avoid becoming a victim of bike theft.

## **LOCK IT UP (THE RIGHT WAY!).**

The best way to prevent bike theft is by locking it up properly. We recommend at the very least using a U-bolt style lock and securing your bike to a rack designed for bicycle storage. The preferred method is to use a U-bolt and chain lock together to secure the bicycle frame and front wheel to a bike rack. Using a chain lock alone is not sufficient, as they can be easily cut or broken.

## **REGISTER YOUR BICYCLE.**

If you are riding a bike on campus, you are required to register it. Doing so is for your benefit — if it's ever lost or stolen, having your registration information on file makes it easier to get it back to you. Here's what to do:

1. Locate your bicycle serial number. You'll usually be able to find it in one of the locations numbered in the image to the right.
2. Take a picture of your bicycle and the serial number and keep it for your records. This will also be helpful when registering it with the university.
3. Visit [bike.illinois.edu](http://bike.illinois.edu) to fill out the Project 529 registration form and a small fee to register your bicycle.
4. Collect your Project 529 shield sticker from your chosen location and affix it to the frame of your bicycle.

**I**

**SIGN  
UP!**

*Project 529 is the university's bicycle registration program and helps protect your property.*

**SCAN THE CODE TO REGISTER.**

---

# EMERGENCY PHONES

Dozens of emergency phones are strategically located across campus. Use them when you need help. They are a recognizable blue color, and some are illuminated with a blue light.

When activated, the phones flash strobe lights and ring directly to University Police. You can also use the emergency phones to request a SafeWalks escort.

**I**  
**MORE**  
**INFO!**

*A map of all the outdoor emergency phones on campus is available online.*

**SCAN THE CODE TO ACCESS.**

---

# ILLINI-ALERT

Illini-Alert is used for incidents that present an imminent threat to life, health or safety to the general campus population — like fires, severe weather and if someone is trying to harm others. These messages provide emergency information and instructions for personal protective actions. Illini-Alert sends email, text and Twitter messages.

Everyone with a campus email address automatically receives Illini-Alert email messages, but it's a good idea to sign up for Illini-Alert text messages so you receive prompt notification of campus emergencies.

**I**  
**SIGN**  
**UP!**

*You can sign up to receive Illini-Alert text messages or add extra email addresses online.*

**SCAN THE CODE TO ACCESS.**

---

# EMERGENCY PREPAREDNESS

Emergencies can happen anywhere, anytime. When we're faced with any kind of emergency – like fire, severe weather or if someone is trying to hurt you – we have three options: **run, hide or fight**.

## **RUN**

Leaving the area quickly is the best option if it is safe to do so.

- Take time to learn the different ways to leave your building.
- Leave personal items behind.
- Assist those who need help, but consider whether doing so puts yourself at risk.
- Alert authorities of the emergency when it is safe to do so.

## **HIDE**

When you can't or don't want to run, take shelter indoors.

- Take time to learn the different ways to seek shelter in your building.
- If severe weather is imminent, proceed to the nearest indoor storm refuge area.
- If someone is trying to hurt you and you can't evacuate, get to a place where you can't be seen, lock or barricade your area, silence your phone, don't make any noise and don't come out until you receive an Illini-Alert indicating it is safe to do so.

## **FIGHT**

You may need to fight to increase your chances of survival.

- Think about what kind of common items are in your area which you can use to defend yourself.
- Team up with others to fight if the situation allows.
- Mentally prepare yourself – you may be in a fight for your life.
- Please be aware of persons with disabilities who may need additional assistance in emergency situations.

*More Run-Hide-Fight resources, including an instructional video, are available on the UIPD website.*

**SCAN THE CODE TO ACCESS.**

---

## MEDICAL AMNESTY

By state law, the police cannot cite you for minor alcohol offenses when you call 911 to get medical assistance for yourself or another person.

Additionally, the university has implemented guidelines to protect you from discipline under certain circumstances. The goal is to encourage students to get help whenever they need it without fear of disciplinary consequences. Learn more about these protections at [go.illinois.edu/amnesty](https://go.illinois.edu/amnesty).

---

## SOCIAL MEDIA SAFETY

Social media are a great way to stay connected as you meet new people on campus, but there are also some pitfalls.

### **KEEP IT SIMPLE.**

Never post personal information, like your Social Security number, birthdate, home address, bank information or phone number, not even in private messages.

### **STAY PRIVATE.**

Monitor your privacy settings, and consider sharing information only with close friends. Limit access to third party apps.

### **BE CAUTIOUS.**

People may contact you for professional or romantic reasons. Often the profiles are fake, and the people behind them are scammers. Never give money and never send private photos to people you don't know.

**I

US!**

*Find us on social media! The University of Illinois Police Department regularly shares important information about public safety issues and safety tips on Instagram (@uipolice), Twitter (@UIPD), Facebook (@uipolice), Reddit (u/UIpolice) and TikTok (@uipolice).*

---

## **SEXUAL VIOLENCE**

Nationwide, it is estimated that 20% of women and 6% of men experience sexual assault or attempted sexual assault during their time in college. In a study published by the Department of Justice, 82 percent of the victims were raped by someone they knew, and 18 percent were raped by a stranger.

The only person responsible for sexual violence is the offender. There are strategies to reducing your risk of being targeted — maintaining awareness of your surroundings, staying with friends, and trusting your instincts are the best ways to stay safe.

Students at the University of Illinois Urbana-Champaign complete awareness classes and training within their first few weeks on campus, and those educational opportunities continue throughout their college years.

There are resources and reporting options available at [wecare.illinois.edu](http://wecare.illinois.edu) for anyone who experiences sexual violence or knows someone who has.

---

## **SCAMS**

Phone and internet scams are common no matter where you are. Be aware of how to identify scams and what to do if you encounter one. Here are the red flags to keep in mind when you receive a call from an unknown person:

### **NO OFFICIAL WILL EVER DEMAND MONEY.**

If a caller claims to be a police officer, immigration official, a tax agent, or any other government representative demanding money, the call is likely a scam.

### **SCAMMERS TRY TO INTIMIDATE VICTIMS.**

If a caller threatens to have you arrested or deported if you hang up, the call is likely a scam.

### **SCAMMERS MAY DEMAND GIFT CARDS.**

If a caller directs you to purchase gift cards or transfer payment in the form of virtual currency, the call is likely a scam.

### **WATCH OUT FOR “SPOOFED” NUMBERS.**

Number “spoofing” makes the victim’s caller ID display a legitimate phone number even though the call is originating from somewhere entirely different. If you have doubts about a caller’s identity, you should hang up and call the listed number for that agency to speak to a representative.
